

		Leadership Training Fund		Erik Frank Trust		Messengers of Peace
Explain		To help solving some problems in an association. And if your solution will have a long term and sustainable impact.		To help young people to develop themselves based on the educational scout principles: learning by doing in a outdoor environment.		Promotes projects who contribute to world peace. The goal is to inspire people throughout the world to work closer toward achieving peace
For		Leadership training trainer, partnership between at least two European scout countries, to contribute to solving a problem or a challenge for your association, the solution has to have a long term impact and has to be possible to evaluate.		We help organizations who help young people to develop the social and the leadership skills. They also encourage the debates and research on ways to help and educate young people to meet the challenges in the society. Everything in the same goal => to contribute constructively to their society, to have more responsible citizens.		We help Scouting organizations in economically poor contries to organize projects who create positive changement in their local communities. Peace it's about : personal dimension (justice, harmony, equality), community dimension (peace as opposed to hostility or violent conflict) and about relationships between humankind and its social and economic welfare, security and relationship with the environment).
Kind of Help		Financial helps		Financial helps (max. is 30 000 pounds). Organizations support to work and to produce a successful event. Help to introduce new people who was efficient in the past.		Organize or help to organize a service project. Share your actions online. Financial help ?
